

Lotus Light a Distributor With a Difference

At Lotus Light we carry not only the major personal care brands that go through distribution, but we also have an incredible selection of exclusively distributed major brands, particularly European brands, that customers love and which help make your store unique, and a magnet for repeat business.

Our Exclusive Brands Include

Acorelle

ACORELLE HAIR REMOVAL: Leading natural hair removal (depilatory) line from France.

BACKJOY: This is an incredibly beneficial (and cost effective) back orthotic device that automatically helps the user sit properly thereby reducing strain on the lower back that occurs from improper posture. Lotus Light is the exclusive distributor in the natural products industry for this line of products.

BIOKAP PERMANENT HAIR COLORS: 18 warm, bright natural colors and one bleaching cream. BioKap Nutricolor Delicato permanent hair colors provide reliable full grey coverage without PPD, paraben, ammonia, or resorcin in a ready to use, easy to apply, non drip formulation. Fragrance free. Nickel tested. Dermatologically tested. Cruelty Free. Made in Italy.

CRYSTAL HERBS FLOWER & GEM ESSENCES: This company in the UK has a range of 50 flower & gemstone essences, which include 40 combination blends for specific conditions and 10 "chakra" blends. Most people have difficulty choosing among the normal single flower essences because they have to become expert at lining up the condition with the essence, a not so simple task! Crystal Herbs has made the use of Flower Essences EASY because they already identify the specific uses and provide the appropriate blend so that the customer can simply pick the product for their own perceived need or use! This opens up Flower Essences to a much wider range of customers and is a real breakthrough in this product niche.

E2 ESSENTIAL ELEMENTS: Room aromatherapy from France. Complex compositions of certified organic essential oils. Available as room mist and innovative diffuser capsules.

HAYMAX: Allergies? HayMax organic, drug-free allergen barrier balms trap allergens before they get into the body. They have been proven to trap dust and pet allergens and over 1/3rd of pollen entering the body through the nose. Less allergens, less reactions! 80% said HayMax worked in a 2015 study. 4 varieties of HayMax have been sold in the UK for over a decade, and they are now launching in the USA.

Lotus Light has dozens of similar unique high quality brands from the USA and around the world and a dedicated, experienced sales team to help you find just the right mix of products to help you to make your store something unique, special and compelling for your customers.
